

# HOME CARE HI LO ADJUSTABLE BED

Designed To Meet  
 NDIS & My Aged Care Requirements  
 And The Assessment of  
 Occupational Therapist

Home Care Hi Lo adjustable bed is specifically designed to allow head, foot and vertical adjustment. The Hi Lo base is as low as 28cm, and conveniently rises at a height that let you walk safely out of bed or for people need assistance transferring at different height levels.

This is Solace Sleep's flagship adjustable base. It has an extraordinary level of adjustability that includes a 'HI LO' feature, ideal for patient transfer, aged care, and healthcare treatment. It has a stylish double deck design that would suit any bedroom design or decor theme. You can also add headboard, bedrail, rail cover with pocket or lockable castors based on your needs. The base is combined with ZERO GRAVITY for pressure relief, Under Bed Light, USB chargers, Wireless and APP control and Massage Therapy, making this product the ultimate in bed base versatility.
